A Tiger at Night

2.37

Tiger woke up from a nap. "I'm hungry," he 9
thought. "I should find some food tonight." 16

Tiger saw a wild pig. "That pig would make a 26
yummy dinner. But she is far away, and I do not feel 38
like running after her. I'll rest now and look for food 49
later." 50

Tiger didn't know it, but the wild pig saw him. 60
She was a kind pig. "I'd better tell my friends that 71
the sly tiger is looking for his dinner." But she was 82
too frightened to go, and she cried. 89

A tiny bird flew out from behind a tree and said, 100
"You hide. I'll fly through the forest and tell the 110
other animals." The other animals were sure that 118
the bird did not lie, so they hid out of sight. 129

After Tiger woke up, he was hungry and 137
started to hunt. The night was silent, and Tiger 146
could not find one animal. He thought, "Why didn't 155
I run after that wild pig when I saw it?" So Tiger 167
went hungry that night. 171
